EXPERIENCE

Lead Design Engineer

Customerly

Oct 2026 - Present

Design Lead

Mar 2024 - Oct 2026

Lead design across Customerly, an AI customer support platform: the web app, iOS and Android apps, live-chat Messenger and website. Designed Aura, the AI agent that resolves support tickets autonomously, and the design system. I own the product experience end to end, from strategy and design to the production interface, built alongside the engineering team.

Founder & Creative Director

FOXXY

Sep 2024 - Present

Launch videos for funded AI startups, Seed to Series B. Creative director on every project: 40+ startups, 24.8M+ views on LinkedIn and X, for companies that have raised $1.2B+, backed by YC, a16z and Sequoia.

Founding Designer

Flow by Cal AI

Feb 2026 - July 2026

Founding designer on Flow by Cal AI: a physical alarm paired with a companion app. Owned design end to end across product, brand, marketing and web, from zero through launch, in a contract role.

Sr. Product Designer

Tripkliq

Apr 2023 - Mar 2024

Design lead through pre-launch: set the UX direction, prioritized features, and designed the core flows and systems for a coherent, launch-ready release.

Product Designer

Onveiv

Sep 2022 - Aug 2023

Product designer across in-house and client apps: research, wireframes, UI and design systems. Moved fast across varied scopes while keeping every platform consistent and production-ready.
